Innovative Full Stack Developer with a strong foundation in JavaScript, React, and Node.js, passionate about building efficient, scalable web applications. Experienced in end-to-end development, from designing intuitive front-end experiences to architecting robust back-end solutions. Always eager to learn and adapt to new technologies.

PROFESSIONAL EXPERIENCE

Ventum Software S.R.L. **Buenos Aires, Argentina**
Full Stack Developer *2019 – present*

- Developed and maintained PERN stack web applications for real estate project management, optimizing workflows and data accessibility.
- Built and optimized React.js front-end interfaces and Node.js back-end services, ensuring seamless user interactions.
- Developed and executed test scripts, performing end-to-end testing to ensure robust application performance.
- Oversaw deployment pipelines and manage production deployments, ensuring seamless rollouts with minimal downtime.
- Managed and optimized relational databases, ensuring efficient data storage and retrieval.
- Led integrations with banking systems and third-party services, including digital signature platforms, to enhance operational efficiency.
- Created KPI dashboards and charts, providing stakeholders with actionable insights into key metrics.
- Provided training and documentation to clients and end-users, facilitating seamless adoption of new features.
- Worked within Agile (Scrum) teams, collaborating closely with developers and stakeholders.

Freelance **Buenos Aires, Argentina**
Web Developer *2022 –present*

- Developed custom, brand-aligned websites, managing everything from UX/UI to deployment.
- Created responsive, high-performance sites independently and in collaboration with a professional designer, transforming her designs into functional web experiences.

Government of Buenos Aires City **Buenos Aires, Argentina**
Technology Teacher *2017 – 2019*

- Designed and led interactive projects, teaching students how to create digital games using Scratch.
- Promoted inclusion and tolerance through creative workshops, guiding students in the production and distribution of school fanzines.
